

10-10-10 Plant Food

with Magnesium and 4% Slow Release Nitrogen

Guaranteed Analysis

Total Nitrogen (N)	10%
5.5% Urea Nitrogen	
0.5% Ammoniacal Nitrogen	
4.0% Slowly Available Water Soluble Nitrogen*	
Available Phosphate (P ₂ O ₅)	10%
Soluble Potash (K ₂ O)	10%
Magnesium (Mg)	0.5%
0.5% Chelated Magnesium (Mg)	

Derived From: Urea, Methylene Urea, Potassium Carbonate, Monoammonium Phosphate, Phosphoric Acid, Magnesium EDTA.

*4% slowly available water soluble Nitrogen from Methylene Urea

F106

10-10-10 is an all purpose fertilizer that provides 4% slow release nitrogen to feed plants consistently and evenly up to 4 weeks. It also contains Magnesium which is an essential micronutrient for many plants.

How to Apply 10-10-10:

Mix solution of 10-10-10 and water according to the directions below. For outdoor use apply using a watering can, hose end sprayer, backpack sprayer, or tank mixed for boom and reel sprayers. For greenhouse use inject through drip or spray irrigation system or use Hozon or hand wand.

Annuals, Perennials, Herbs & Vegetables:

Outdoor Plant Care and Maintenance:

- Mix 6 tablespoons (3 fl. ounces) 10-10-10 per gallon of water.
- 1 gallon of solution will treat 10 square feet.
- 1 quart of 10-10-10 makes 11 gallon of solution and will treat 110 sq. ft. of planted area.
- Drench soil around plant until saturated.
- Repeat application every 28 days.

For Greenhouse Bed, Bench, Trays or

Container Plants:

- Mix 4-1/2 teaspoons (3/4 fl. ounces) of 10-10-10 per gallon of water.
- 1 gallon of solution treats 10 square feet.
- 1 quart of 10-10-10 makes 42 gal. of solution.

PPM Application:

- For 100 PPM Nitrogen, mix 10 fl. ounces in 1 gallon of water.
- Set injector to 1:100.

Trees, Shrubs & Woody Ornamentals:

- Mix 6 tablespoons (3 fl. ounces) per gal. of water.
- 1 gallon will cover 10 square feet.
- 1 quart of 10-10-10 makes 10 gallons of solution and will cover 100 sq. ft. of planted area.
- Drench soil with solution below drip line.
- Apply monthly during growing season.

DBH (Diameter at Breast Height) Method:

- Mix 7-1/2 fl. ounces of 10-10-10 in 5 gallons of water per inch of trunk DBH.
- Always measure DBH at 4-1/2 ft. from ground.

Containerized Plants:

- Mix 2 tablespoon (1 fl. ounce) per gal. of water.
- 1 quart of 10-10-10 makes 32 gallons of solution.
- Drench plant with 9 fl. ounces of solution per 1 gallon container.

Transplants:

Place transplant in a hole (2x size of root ball) and fill hole with loose soil.

- Mix 8 oz. of 10-10-10 per 5 gals of water. Pour solution around transplant until soil is saturated.
- Repeat monthly.

Palms:

For both foliar sprays and soil applications.

- Mix 2-1/2 tablespoons (1-1/4 fl. ounces) of 10-10-10 per gallon of water.
- Spray leaf surface until run off, or drench soil with solution.

Turf Grass:

Use on all types of turfgrasses.

- 12 fl. ounces of 10-10-10 fertilizes 1,000 square feet.
- 1 quart of 10-10-10 fertilizes 2,666 square feet.
- Apply every 14 days.

Seeding New Lawns: Apply seed as directed by seed company label. Follow the turfgrass directions above. Apply 10-10-10 as soon as seeds are sown.
