CONDITIONS OF SALE AND WARRANTY

Creative Marketing & Research, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Creative Marketing & Research, Inc. neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Creative Marketing & Research, Inc. and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling and use of this material not in strict accordance with directions given herewith. In no case shall Creative Marketing & Research, Inc. or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Creative Marketing & Research, Inc. and is accepted as such by the Buyer.

DIRECTIONS FOR USE

CMR NeutraZinc 50 is recommended for aerial, concentrate and dilute application to various field, vine and tree crops.

Actively growing plants with young leaves absorb foliarly-applied CMR NeutraZinc 50 most efficiently. Immediate post-irrigation or post-rainfall applications give best foliar uptake. Addition of urea (for example, 5 pounds of Lo-Bi Urea per 100 gallons of spray solution) will enhance foliar uptake of CMR NeutraZinc 50.

Avoid foliar applications of this product when plants are under moisture stress. AVOID foliar applications to deciduous tree crops during bloom.

CAUTION: Certain varieties of almonds, apricots, peaches and plums are sensitive to foliar zinc applications. Test applications to part of several trees are advisable to assess the potential for undesirable effects under specific use conditions. Post-application rainfall may cause some shotholing of foliage, but usually will not damage the health of with trees or fruit.

COMPATIBILITY: This product is compatible with most pesticides and liquid fertilizers. A compatibility test is recommended if the desired combination has not been previously used, especially when mixing with phosphate-containing fertilizer solutions intended for applications to soil.

SPRAY VOLUME TERMINOLOGY

DILUTE: 200 plus gallons of water per acre
 SEMI-CONCENTRATE: 100 - 200 gallons of water per acre
 CONCENTRATE: 25 - 100 gallons of water per acre
 AERIAL: 5 - 10 gallons of water per acre

DORMANT AND DELAYED DORMANT APPLICATIONS

DECIDUOUS TREE CROPS: Including Apples, Pears, Peaches, Plums, Prunes, Nectarines, Apricots, Cherries, Almonds, and Walnuts.

	RATES PER 100 GALLONS OF SPRAY SOLUTION		RATES PER ACRE
	DILUTE	SEMI CONCENTRATE	CONCENTRATE
WITH OILS	2-4 lbs	4-6 lbs	5-20 lbs
WITHOUT OILS	3-6 lbs	5-6 lbs	6-20 lbs

FOLIAR APPLICATIONS

CROP	RATES PER 100 GALLONS OF SPRAY SOLUTION		RATES PER ACRE	
	DILUTE	SEMI CONCENTRATE	CONCENTRATE	AERIAL
DECIDUOUS TREE CROPS	2-4 lbs	1-3 lbs	4-6 lbs	2-3 lbs
GRAPES	3/4-4 lbs	3/4-3 lbs	2-4 lbs	1-2 lbs
CITRUS	1-2 lbs	2 lbs	4-6 lbs	2-3 lbs
HOPS			3-5 lbs	1-3 lbs
POTATOES, CORN, SMALL GRAINS, ONIONS			2-4 lbs	1-2 lbs
PEAS, LENTILS, BEANS			2-4 lbs	1-4 lbs

Net Weight: 25 lbs. (11.34 kg.)
