All applicable directions, restrictions, and precautions on the EPA registered label are to be read, observed and followed.

This label must be in possession of the user at the time of application.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

Apply from winter through early spring to dormant peppermint, or immediately after flaming, prior to crop emergence. Apply by ground only; do not cultivate after application. Make only one application per year. Do not apply to stands less than 1 year old, nor to poorly rooted stands weakened by disease or insects, as injury may occur.

Do not apply this product through any type of irrigation system.

For list of weeds and grasses controlled, please see EPA Registered Diuron 80 Herbicide Label.

APPLICATION RATE: *PEPPERMINT* - For control of certain broadleaf weeds and annual grasses in peppermint. On soils with 1% to 2% organic matter, apply 3/4 to 1 pound per acre. On soils with 2% to 3% organic matter, apply 1 to 2 pounds per acre. On soils with 3% greater organic matter, apply 2 to 3 pounds per acre.
