

**Green
Cypress**

Iron 5%

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

GENERAL INFORMATION

GREEN CYPRESS IRON 5% is recommended to prevent and correct iron deficiencies of field, row, vegetable, fruit, tree, vine, ornamental and turf crops. GREEN CYPRESS IRON 5% alone, with pesticides, or with other fertilizers, may be applied directly to the soil or to the foliage of growing crops. GREEN CYPRESS IRON 5% may be applied via ground sprayers (high-volume or low-volume), aircraft or drip irrigation systems.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.regulatory-info-monterey.com>

DIRECTIONS FOR USE

Soil applications of GREEN CYPRESS IRON 5% are recommended with nitrogen fertilizer solutions. Thorough coverage and wetting are needed for optimum foliar spray results. Actively growing plants with young leaves absorb foliarly applied GREEN CYPRESS IRON 5% most efficiently. Immediate post-irrigation or post-rainfall application give the best foliar uptake. Addition of urea (for example, 5 lbs. Lo-Bi Urea per 100 gallons of spray solution) will enhance foliar uptake of GREEN CYPRESS IRON 5%.

COMPATIBILITY: GREEN CYPRESS IRON 5% is compatible with most pesticides and fertilizers. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Shake, stir, or swirl contents before using. Always add this product to the spray tank before adding pesticides.

GUARANTEED ANALYSIS

Sulfur (S) 2.8%
Iron (Fe) 5.0%
Derived from ferrous sulfate, complexed with lignosulfonate.

SOIL APPLICATIONS FOR ALL CROPS*

Soil Fertility Maintenance 1-3 qts./acre
Mild Deficiency 2-6 qts./acre
Severe Deficiency 1-3 gals./acre

*The lower rates are for field, row and vegetable crops. The higher rates are for fruit, tree, vine, ornamental and turf crops.

Drip Irrigation: Apply the recommended amount of product in split applications one to two weeks apart throughout the growing season.

FOLIAR APPLICATIONS FOR ALL CROPS:

Apply 2-4 quarts/acre as needed on a 7-14 day schedule. AVOID foliar applications of this product when plants are under moisture stress. AVOID foliar applications to deciduous tree crops during bloom.

Dilute Applications: Apply the suggested dose of product in enough water for thorough coverage.

Concentrate Applications: Use up to 1 quart of GREEN CYPRESS IRON 5% in a minimum of 25 gallons of water per acre.

Aerial Applications: Up to 1 quart of GREEN CYPRESS IRON 5% per gallon of spray may be used, but more dilute solutions will improve coverage and results.
