P R O D U C T D A T A B U L L E T I N

# Granusol® Iron 50% Fe

Dispersing Granular Iron Sulfate

*Dispersing, coarse granular, -6 + 16, -10 + 20, or -14 + 35 mesh iron sulfate, providing quickly and agronomically available iron for use in dry-mixed, bulk-blended fertilizer.*

## Advantages

**GRANUSOL®**

- All reduced, divalent, agronomically available Fe
- Granules disperse into -325 mesh (44 micron) particles upon contact with water or soil-moisture
- Fast and efficient plant availability
- Granule size matches major nutrients for reduced segregation
- High granule population of micronutrients per ton of mixed goods
- Moderate concentration for agronomic efficiency
- Color coded bags for easy identification
