

IND. SULFAMES 777 COMILOG
Net Weight 22.7 kg (50 lbs)

P04

Tecmangam

MANGANESE SULFATE MONOHYDRATE

Powder

Guaranteed Analysis

Sulfur (S) 19%

Manganese (Mn) 32%

32% Water Soluble Manganese (Mn)

Derived from manganese sulfate monohydrate

ERACHEM
COMILOG
The Manganese Source®

Tecmangam

Powder

CAUTION:

This material contains manganese and should only be used as recommended. It may prove harmful when misused. Tecmangam® may discolor concrete, and any other masonry surfaces, etc. Contact with these surfaces should be avoided.

FOR USE AS A FERTILIZER INGREDIENT:

This product should be used on the basis of a soil and/or tissue analysis. For fertilizer application rates suitable for your geographical area or the maximum allowable application rate per hectare (per acre), consult a trained soils specialist or write to Industrias Sulfamex, S.A. de C.V. Manganese deficiency is usually associated with neutral or calcareous mineral soils, with calcareous muck, and with organic soils that have been burned. Manganese deficiency is highly unlikely on soils that have a pH below 6.8. Due to rapid soil fixation, broadcast manganese applications are not effective.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.wa.gov/ag/>.

CANADIAN REGISTRATION # 890046B FERTILIZERS ACT.

MANGANESE SULFATE MONOHYDRATE	SULFATE DE MANGANESE MONHYDRATE									
WARNING! Avoid contact with eyes Avoid contact with skin Avoid breathing dust Do not swallow Wash thoroughly after handling May stain concrete and ornamental surfaces KEEP OUT OF REACH OF CHILDREN	ADVERTISSEMENTS! Eviter le contact avec les yeux Eviter le contact avec la peau Eviter de respirer la poussière Ne pas avaler Laver convenablement après utilisation Peut tacher béton et ornements surfaces GARDER A DISTANCE DES ENFANTS!
