Magnesium (Mg) .....	4.00%
Derived from magnesium sulfate and low biuret urea.	

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## KEEP OUT OF REACH OF CHILDREN CAUTION

### GENERAL INFORMATION

MONTEREY MAG SULF PLUS is recommended for use on field crops, vegetables, row crops, deciduous trees and vines and evergreens such as citrus and avocados. MONTEREY MAG SULF PLUS is designed for foliar and soil applications to economically correct magnesium deficiency in plants.

### DIRECTIONS FOR USE — GENERAL

SHAKE, STIR OR SWIRL CONTENTS BEFORE USING.

Soil applications of MONTEREY MAG SULF PLUS are recommended at planting or transplanting. Actively growing plants with young leaves absorb foliarly-applied MONTEREY MAG SULF PLUS most efficiently. Immediate post-irrigation or post-rainfall applications give best foliar uptake.

Avoid foliar applications of this product when plants are under moisture stress. Avoid foliar applications to deciduous tree crops during bloom.

**COMPATIBILITY:** MONTEREY MAG SULF PLUS is compatible with most pesticides and fertilizers. Before tank mixing or use, check compatibility with a jar test of the products.

### DIRECTIONS FOR USE — SPECIFIC

**FIELD CROPS:** Apply recommended rate in sufficient volume of water for thorough coverage by air or ground. For use on crops such as: **Cereals (Wheat, Oats, Barley, Rye):** Apply 1-2 quarts per acre before heading. DO NOT graze within 7 days after application. **Corn:** Apply 1-2 quarts per acre at the 6-8 leaf stage. **Cotton:** Apply 1-2 quarts per acre before squaring.

**VEGETABLES:** Apply recommended rate in sufficient volume of water for thorough coverage by air or ground. For use on crops such as: **Beans:** Apply  $\frac{3}{4}$ -1 $\frac{1}{2}$  gallons per acre prior to bloom. **Celery:** Apply  $\frac{3}{4}$ -1 $\frac{1}{2}$  gallons per acre at 6"-8" height. **Potatoes:** Apply  $\frac{3}{4}$ -1 $\frac{1}{2}$  gallons per acre at tuber development.

**TREE CROPS:** Apply recommended rate in sufficient volume of water for thorough coverage by air or ground. For use on crops such as: **Apples, Pecans, Prunes, Walnuts:** Apply 1-2 quarts per acre. **Citrus:** Apply  $\frac{1}{2}$  - 1 gallon per acre.

### CONDITIONS OF SALE AND WARRANTY

Monterey Chemical Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Monterey Chemical Company neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Monterey Chemical Company and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage and use of this material not in strict accordance with directions given herewith. In no case shall Monterey Chemical Company or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Monterey Chemical Company and is accepted as such by the Buyer.
