

General Information

M-P-A® Row Crop is a biostimulant & soil micronutrient package recommended for use on row crops, especially potatoes, sugar beets, and onions. It is designed to promote nutrient penetration, uptake, and utilization through its proprietary formulation and blend of micronutrients, plant extracts, surfactants, natural polysaccharides, carboxyl phenolic acids, glucosamine, and EDTA.

M-P-A® Row Crop can be used to prevent or correct trace element deficiencies. This product combines trace elements with glucosamine, a powerful chelating agent, which makes them readily available for rapid absorption by the root system. Because trace element deficiencies usually occur when plants are small, **M-P-A® Row Crop** should be added to fertilizer such as 10-34-0 (ammonium polyphosphate) during planting, whenever possible.

M-P-A® Row Crop should be soil applied for best results, but may be water run through a sprinkler system. Broadcast or row applications are acceptable, although greater efficiency may be expected from injecting or banding.

Guaranteed Analysis

Secondary plant food (% by weight)

Sulfur (S)	2.80%
Boron (B)	0.33%
Copper (Cu)	1.33%
Iron (Fe)	0.34%
Manganese (Mn)	0.48%
Zinc (Zn)	3.33%

(Derived from zinc sulfate, ferrous sulfate, copper sulfate, manganese sulfate, and boric acid. The chelating agents include: carboxyl/phenolic acids, anhydro-N-acetyl-glucosamine, EDTA.)

ALSO CONTAINS NONPLANT FOOD INGREDIENTS

Biostimulants		Enzymes/Substrates	
Fulvic acid derivatives	0.5%	Alginic Acid	0.018%
Polysaccharides	4.5%	Mannitol	0.006%
Organic acids (humic acids)	3.0%	Laminarin	0.007%
<i>(Derived from leonardite and plant extracts by fermentation.)</i>		Ascorbic Acid	1.0%
		Alpha-tocopherol	0.12%
		Myo-Inositol	0.10%
		Amino Acids	1.0%

Net Contents: 2.5 gallons
Shuttle
Bulk

Weight per Gallon: 9.71 lbs

**SHAKE WELL BEFORE USING
CAUTION: KEEP OUT OF THE REACH OF CHILDREN
HARMFUL IF SWALLOWED**

Application Instructions

Soil applications of **M-P-A® Row Crop** can be incorporated in liquid fertilizer or applied separately. If mixed with water only, use within one hour. DO NOT acidify the water.

Washington State law requires EPA-approved safety devices to be in use when this product is used in any irrigation system.

Application Rates

Warning: This fertilizer contains boron, which may be injurious to certain crops. Contact your county agent or field consultant for specific information.

For use with macronutrients (N, P, and/or K) on row crops: Apply 2 to 5 gallons of **M-P-A® Row Crop** per acre mixed with the liquid nutrients. Add **M-P-A® Row Crop** to a partially filled tank and continue to fill the tank. If mixing permits, allow agitation of the solution to insure uniform mixing.

To use M-P-A® Row Crop alone: apply the following rates if you do not have a soil or leaf analysis:

Maintenance Application.....	2 to 3 gallons per acre
Moderate Micronutrient Deficiency.....	3 to 4 gallons per acre
Heavy Micronutrient Deficiency.....	4 to 5 gallons per acre

M-P-A® Row Crop can be mixed with almost all liquid fertilizers and liquid nutrients including seeding, pre-plant, side dress, banding, and water runs via sprinkler irrigation.

Center-pivot Irrigation Equipment: use only with electric or oil hydraulic drive systems that provide a uniform water distribution.

M-P-A® Row Crop is compatible with almost all fertilizers, nutrients, pesticides and fungicides. If unfamiliar with its use, be sure to check with **NORTHWEST AGRICULTURAL PRODUCTS** for compatibility or perform a jar test, mixing each product in the same ratios as to be field applied.

M-P-A® Row Crop can be coated on dry blend fertilizer to control dust in the blend plant and supply needed micronutrients. Contact **NORTHWEST AGRICULTURAL PRODUCTS** for the necessary equipment and instructions.

Storage Instructions

If you use **M-P-A® Row Crop** in bulk, it can be stored and/or shipped in stainless steel, fiberglass, or polyethylene tanks. For additional information contact **NORTHWEST AGRICULTURAL PRODUCTS** at (509) 547-8234.

CONDITION OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop soil, and other conditions may vary, Northwest Agricultural Products and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling whether or not in accordance with directions or suggestions.
