## CONDITIONS OF SALE

Note: Read the information contained therein before buying or using this product. If the statements are not acceptable, return the product at once unopened.

DIRECTIONS FOR USE of this product are based on field use and tests believed reliable and should be followed carefully. It is, however, impossible to eliminate all risks associated with use of this product. Because such factors as weather conditions, foreign material and manner of use for application are all beyond the control of Monterey Chemical Company or the Seller of this product, such things as crop injury, ineffectiveness or other unintended consequences may result. ALL SUCH RISKS ARE ASSUMED BY THE BUYER.

Monterey Chemical Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use as modified by the above. Monterey Chemical Company makes no other warranties, express or implied, including FITNESS or MERCHANTABILITY. In no case shall Monterey Chemical Company or the Seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. The foregoing is a condition of sale by Monterey Chemical Company and is accepted as such by the Buyer.

KEEP FROM FREEZING

NET CONTENTS: 1 quart

## PRODUCT INFORMATION

MARK-IT •GREEN• is a concentrated green colorant designed to be a temporary spray indicator for use with pesticide and other liquid spray solutions. MARK-IT •GREEN• provides highly visible evidence of spray application patterns. Use of MARK-IT •GREEN• eliminates waste due to overlapping and skipping while indicating drift and improper application.

MARK-IT •GREEN• readily dissipates, is non-toxic and totally compatible with water soluble solutions. MARK-IT •GREEN• is designed for both agricultural and non-crop uses. It is ideal for golf courses, parks, cemeteries, athletic fields, lawn care maintenance utility rights-of-ways, forestry, and any large turf or grass areas — virtually anywhere where spray evidence is needed. MARK-IT •GREEN• will not permanently stain vegetation, soil or human skin and can be used with boom-sprayers, row-crop riding equipment, backpack or wand sprayers.

## DIRECTIONS FOR USE

MARK-IT •GREEN• should be added to the spray tank when it is approximately half full. Use one quart (0.94 liters) of MARK-IT •GREEN• for each 75-100 gallons of spray solution. Use one gallon of MARK-IT •GREEN• for each 300-400 gallons of solution. When using hand-held or back-pack sprayers (i.e., 3-5 gallons) use one ounce MARK-IT •GREEN• per gallon.

The above rates are approximations. Turf or weed color, height and individual water conditions such as hardness, pH, iron content, etc., may dictate variations from the above suggested rates. Slight adjustment is recommended. Test for required concentration before use and adjust as needed.

If accidentally spilled, MARK-IT •GREEN• can be removed from skin or equipment with several washings of soap and water. Avoid letting MARK-IT •GREEN• concentrate come into contact with fabrics.
