WATER SHADING & COLORING AGENT

READ ENTIRE LABEL CAREFULLY BEFORE USING THIS PRODUCT

H₂O • BLUE will give your water a cosmetic beauty ranging from ocean blue to aquamarine. H₂O • BLUE is a combination of fixed dyes that will disperse sunlight rays while restoring discolored water into a natural ocean blue look. Use H₂O • BLUE wherever discoloration is a problem. When used according to label directions, H₂O • BLUE is not harmful to fish, turf, birds and other aquatic species.

Net Contents: 1 Gallon / 3.8 Liters
 2.5 Gallons / 9.45 Liters

KEEP OUT OF REACH OF CHILDREN CAUTION

Do not take internally. Avoid contact with eyes or skin. In case of eye contact, flush with cold water and seek immediate medical attention. If skin contact occurs, wash with soap and water.

Manufactured for:

MONTEREY CHEMICAL COMPANY
P. O. Box 35000 • Fresno, CA 93745 • (559) 499-2100

DIRECTIONS

Apply H₂O • BLUE directly into the water to be treated. Generally one gallon of H₂O • BLUE will treat one million gallons of water depending on water quality. Apply either directly from container along shoreline or pour from a slow moving boat. Wind and water currents will slowly disperse and mix H₂O • BLUE uniformly throughout the entire body of water. H₂O • BLUE can also be applied by a hand-held "Hudson type" pressure sprayer. Use caution in windy conditions.

DO NOT apply this product to water intended for human consumption. DO NOT use this product in streams, rivers or other bodies of water not under control of the user. DO NOT use in water that has been or will be chlorinated.
