CONDITIONS OF SALE AND WARRANTY

Monterey Chemical Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Monterey Chemical Company neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Monterey Chemical Company and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage and use of this material not in strict accordance with directions given herewith. In no case shall Monterey Chemical Company or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Monterey Chemical Company and is accepted as such by the Buyer.

GENERAL INFORMATION

MonoPlex Iron 10% is a water degradable granular complex recommended for ground or aerial applications to prevent and correct iron deficiency in crops.

DIRECTIONS FOR USE

MonoPlex Iron 10% is recommended for use on all types of soils. To ensure uniform coverage, MonoPlex Iron 10% should be dissolved in water or fluid fertilizer, or dry blended with water soluble fertilizers. For trees or individual plants, the complex may be blended with an inert (such as soil or sand) or sprinkled directly on the soil uniformly under the plant's drip line, then watered in.

RECOMMENDATIONS

FIELD AND VEGETABLE CROPS including alfalfa, beans, celery, corn, cotton, cucumbers, dry beans, forage grasses, lettuce, melons, onions, peas, peppers, potatoes, rice, safflower, sorghum, sugar beets, sweet corn, tomatoes:	5 to 15 lbs. per acre
TREE AND VINE CROPS including almond, apple, apricot, avocado, berry, cherry, citrus, grape, mango, nectarine, olive, pear, peach, pistachio, plum, walnut:	5 to 20 lbs. per acre or 1 1/3 to 5 1/4 oz. per inch of tree diameter
ORNAMENTAL SHRUBS AND TREES including azaleas, gardenias, junipers, pines, roses:	2½ Tbsp. for small shrubs and up to 2½ Tbsp. per inch of tree diameter for large trees and shrubs
LAWNS AND TURF:	1 lb. per 1,000 sq. ft. or 43 lbs. per acre

The rates given in the table above are based on broadcast application. If broadcast rates are used for spot or banded applications, phytotoxicity may result.

NET WEIGHT: 50 LBS / 22.7 KG
