

NZN™ is a patented liquid fertilizer containing zinc in an easily absorbed form, along with nitrogen compounds to further increase absorption efficiency. NZN stimulates cell formation, increases leaf size and encourages good root development and plant growth. Disease and stress tolerance is enhanced.

Application Rates

Pecans: Apply 1¼ to 2¼ quarts per 100 gallons of water. Spray to cover. This is equivalent to 2½ to 5 teaspoons per gallon.

Apply at bud break to end of shoot elongation. Apply 3 to 5 applications, post-harvest, dormant and delayed dormant.

Vegetables: Apply 1 to 2 quarts per acre in 20 gallons of water. This is equivalent to ½ to 1 teaspoon per 100 square feet. Apply in sufficient water to spray to cover.

Apply when sufficient foliage is present. Apply early morning or late evening, but not during the heat of the day. Do not apply in temperatures above 90°F.

Fruit & Berries: Apply 1 to 2 quarts per 100 gallons of water. Spray to cover. This is equivalent to 2 to 4 teaspoons per gallon.

Apply when sufficient foliage is present. Repeat as need during the growing season. Apply prior to fruit set.

Ornamentals: Great care should be used in spraying ornamentals. Apply 16 oz of NZN per 100 gallons of water. This is equivalent to 1 teaspoon per gallon of water.

Transplant water applications: Apply 2 to 4 teaspoons of NZN per gallon of water.

Mixing procedures

1. Add ½ of total water to spray tank
2. Start circulating material in tank
3. Add recommended amount of NZN
4. Complete filling of spray tank to desired volume.

Flush all spray equipment after usage.

Crystallization may occur over time, analysis of material should not be affected.

Crystals may be applied to your garden area.

Manufactured by: Tessengerlo KERLEY, Inc. • 2255 N. 44th St., Ste. 300 • Phoenix, AZ 85008-3279

NZN™ 15-0-0

For the prevention and correction of Zinc deficiency in crops and ornamentals.

READ LABEL CAREFULLY

PRECAUTIONARY STATEMENTS: Avoid prolonged or repeated contact with eyes, skin and clothing. Chemical goggles or a full face shield should be worn. To protect skin wear appropriate protective equipment, such as rubber or plastic aprons, rubber gloves and boots. Avoid breathing mist or vapor. Keep containers closed. Wash thoroughly after handling. May cause gastro-intestinal distress if swallowed.

HANDLING AND STORAGE: Minimize skin exposure. Store mini-bulks and smaller containers out of the sun in an area of moderate temperature. Do not re-use containers. Avoid containers, piping or fittings made of copper-containing alloys or galvanized metal. Dispose of containers in accordance with local regulations and requirements.

FIRST AID: In case of contact with eyes, immediately flush eyes with water for at least 15 minutes. Seek immediate medical attention if irritation occurs. In case of skin contact, flush skin with water. If irritation occurs, seek immediate medical attention. Remove and wash contaminated clothing before reuse. If swallowed, give large amounts of water and induce vomiting by touching back of throat with finger unless unconscious. Seek immediate medical attention.

Store above 18° F. (-8°C) to avoid crystallization. Consult application guide for additional information.

Guaranteed Analysis:

Total Nitrogen (N) 15.0%
5.9% Ammoniacal Nitrogen
7.7% Nitrate Nitrogen
1.4% Urea Nitrogen

Total Zinc (Zn) 5.0%
5.0% Water Soluble Zinc (Zn)

Derived from ammonium nitrate, urea and virgin zinc nitrate.
