FOR AGRICULTURAL SPRAYS

GUARANTEED ANALYSIS

0-16-9

Available Phosphoric Acid (P ₂ O ₅)	16.00%
Soluble Potash (K ₂ O)	9.00%
Iron (Fe)	0.10%
Manganese (Mn)	0.05%
Zinc (Zn)	1.00%

Derived from mono potassium phosphate, ferrous sulfate, manganese sulfate and zinc sulfate.

PRINCIPAL FUNCTIONING AGENTS:

Nonyl phenoxy polyethoxy ethanol, polydimethyl-siloxane and mono potassium phosphate 31.5%

CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT: 68.5%

TOTAL: 100.0%

CA Reg. No. 1050775-50012-AA

ATTENTION: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

NET CONTENTS: 2.5 GALLONS / 9.5 LITERS

NET WEIGHT: 10.68 lbs./gal. at 68°F

Manufactured by:

CREATIVE MARKETING & RESEARCH, INC.
P.O. Box 35000 • Fresno, CA 93745-5000

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water. If so advised by a physician or Poison Control Center, induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. **IF IN EYES:** Immediately flush eyes with plenty of water and get medical attention. **IF ON SKIN:** Immediately wash skin with plenty of soap and water while removing contaminated clothing and shoes. If irritation persists, seek medical attention. **IF INHALED:** Remove victim to fresh air.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. May cause irritation of eyes, nose, throat and skin. Avoid contact with eyes, skin and clothing. Avoid breathing spray mist. Wash thoroughly after handling. Remove contaminated clothing and wash thoroughly before reuse.

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

ENVIRONMENTAL HAZARDS

Do not contaminate water when disposing of equipment washwaters.

CONDITIONS OF SALE AND WARRANTY

Creative Marketing & Research, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Creative Marketing & Research, Inc. neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Creative Marketing & Research, Inc. and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage and use of this material not in strict accordance with directions given herewith. In no case shall Creative Marketing & Research, Inc. or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Creative Marketing & Research, Inc. and is accepted as such by the Buyer.

NO FOAM® NUTRIENT FOLIAR SOLUTION 0-16-9

NO FOAM NUTRIENT FOLIAR SOLUTION 0-16-9 is a nutrient solution combined with a complete anionic/nonionic surfactant blend. **NO FOAM NUTRIENT FOLIAR SOLUTION 0-16-9** supplies major and minor nutrients and a complete surfactant system with emulsion stabilizer. It increases the efficiency of various agricultural chemicals. It insures quick wetting and uniform coverage, and aids the performance of translocated and systemic agricultural chemicals. In areas where the water is alkaline, this product acidifies and buffers, tending to reduce hydrolysis of and increase the life expectancy of pesticides such as organophosphates. **NO FOAM NUTRIENT FOLIAR SOLUTION 0-16-9** is designed to increase the absorption and utilization of micronutrients and is formulated from raw materials which will not tend to burn foliage.

DIRECTIONS FOR USE

For row or field crops, apply **NO FOAM NUTRIENT FOLIAR SOLUTION 0-16-9** in at least 20 gallons water per acre for ground sprayers or 10 gallons for aircraft. Apply to fruit trees or ornamentals in at least 100 gallons water per acre with conventional sprayers, 45-100 gallons with concentrate sprayers, or 10 gallons for aircraft. Agitate product in container first and during addition to water.

USE PRECAUTIONS: For best results, use this material in early stages of plant growth. Do not apply to fruit where spotting may occur or on crops not on this label. **NO FOAM NUTRIENT FOLIAR SOLUTION 0-16-9** is compatible with most crop protection chemicals. Do not use equipment contaminated with herbicides. Tank mixtures of **NO FOAM NUTRIENT FOLIAR SOLUTION 0-16-9** with copper-based pesticides can be phytotoxic due to increased solubility of copper. Test applications to part of the crop are advisable to assess potential phytotoxicity before full scale, commercial applications. The following crops are known to be sensitive to foliar applications of copper: broccoli, cabbage, celery, cucurbits, grapes, lettuce, nectarines, peaches, pears, plums, prunes, spinach and strawberries.

SHAKE WELL BEFORE USING

PESTICIDE ACIDULATION FOR TERRESTRIAL USE SITES: Use 1 to 2 quarts per 100 gallons of water to reduce the pH of alkaline waters used for pesticide applications.

FOLIAR NUTRITIONAL SPRAYS: Use the doses recommended below.

APPLES, APRICOTS, PEARS, PLUMS, PRUNES, NECTARINES, FIGS, PEACHES, CHERRIES, NUT CROPS & OLIVES: Apply 2 quarts/acre in delayed dormant and continue with several applications after blooming period. Use with caution on smooth skinned fruits.

ALFALFA, BEANS, BARLEY, CORN, RICE & MILO: Apply 1 to 2 quarts/acre in seedling stage to early growth.

CITRUS: Apply 2 quarts/acre before or during spring flush of growth. Multiple applications are desirable. Apply 1 to 2 quarts/acre on non-bearing trees anytime before or during a flush of growth.

CELERY, CARROTS & COLE CROPS: Apply 1 to 2 quarts/acre 2 to 3 times in early growth.

COTTON: Apply 1 to 2 quarts/acre 1 to 3 times before full bloom.

BUSHBERRIES, STRAWBERRIES & GRAPES: Apply 1 to 2 quarts/acre during and after bloom.

LETTUCE: Apply 1 to 2 quarts/acre in 1 to 4 applications beginning at thinning time.

MELONS, CUCUMBERS & SQUASH: Apply 1 to 2 quarts/acre.

SUGARBEETS: Apply 1 to 2 quarts/acre in 1 to 2 applications from 6-leaf to 3 months old.

TOMATOES, PINEAPPLES, PEPPERS, POTATOES, SWEET POTATOES & EGGPLANTS: Apply 1 to 2 quarts/acre in 1 to 2 applications.

TURF & ORNAMENTALS: Apply 1 to 2 quarts/acre at monthly intervals.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store in a dry location away from children, animals, foods, feeds and seeds. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal. **PRODUCT DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
