For ultimate water absorption

OROSORB is the ultimate product for reducing water evaporation and to increase moisture retention in the soil. OROSORB reduces surface tension to allow water to quickly absorb into the soil and reach plant roots for more thorough watering and water conservation.

NON-PLANT FOOD INGREDIENT

ACTIVE INGREDIENTS

% (As packaged)	Chemical Name
10.59	Sulfonic Acid
8.92	Alcohol Ethoxylate
7.13	Sodium Lauryl Sulfate
1.78	Olefin Sulfonate

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

Recommended Concentration:

Use a 0.75% concentration for increased water penetration into soil.

Volume per Acre: Use from 35 up to 120 gallons of diluted product per acre.

Equipment: Apply OROSORB with a fan-type blower for best results. When using other spray equipment, be sure to apply a consistent and even spray over entire area.

Personal Protection: Always use safety glasses and impermeable gloves while handling OROSORB.

When to apply: Always spray early in the morning or early evening to avoid excessive initial evaporation during the spraying process.

Mix: Use 1 fl. oz OROSORB to 128 fl. oz (1 US gallon) of water.

2.5 Gallons
