

# Oxi-Phos™

## 6-18-2

A Bio-technical™ Macro-Micronutrient Package

Net Contents: 5 gallons (18.9 Liters)

Weight per Gallon: 9.70 lbs.

A Bio/Chemical Manufacturing Company

P.O. Box 3453-- Pasco WA 99302

509 / 547-8234

**SHAKE WELL BEFORE USING**  
**CAUTION: KEEP OUT OF REACH OF CHILDREN**  
**HARMFUL IF SWALLOWED**

### DIRECTIONS FOR USE

**Mixing Sequence:** 1. Water 2. Oxi-Phos™ 3. Other agricultural chemicals

**Application Rate:** Apply at the rate of 1 to 3 qts. per acre to correct deficiencies of listed nutrients.

**Foliar Application:** Apply Oxi-Phos™ with 20 gallons of water per acre through conventional sprayers. When using low volume equipment or aerial application, 5 to 10 gallons of water per acre is usually sufficient. This product can be used in combination with other chelate/citrate-based products and/or many pesticides.

**Soil Application with Other Liquid Fertilizer:** Oxi-Phos™ may be combined with other liquid fertilizer. Broadcast or row applications are acceptable, although greater efficiency may be expected from row application. Trace elements should be added to pre-plant fertilizer.

### GENERAL INFORMATION

Oxi-Phos™ can be applied to potatoes, sugar beets, most other vegetable and row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, range grasses, and most other crops.

Oxi-Phos™ is a liquid plant food containing the primary plant nutrients and some micronutrients, which are chelated with EDTA, to provide rapid assimilation into the plant system.

Oxi-Phos™ liquid fertilizer was formulated to provide a fast method to boost plant growth during critical or high growth periods, to prevent damage due to weather, and to correct nutrient deficiencies.

Oxi-Phos™ is processed with agents aiding in spray tank wetting and dispersment, therefore it will disperse in water with minimum agitation.

### GUARANTEED ANALYSIS GRADE 6-18-2

#### Guaranteed Analysis

Total Nitrogen (N).....	6%
3.47% ammoniacal nitrogen	
2.53% urea nitrogen	
Available Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> ).....	18%
Soluble Potash (K <sub>2</sub> O).....	2%
Boron(B).....	0.02%
Copper(Cu).....	0.05%
0.05% Chelated Copper
