

STUBBLE-AID

Crop residue treatment designed to enhance residue degradation.

DIRECTIONS FOR USE

Shake well before using. Apply Stubble-Aid at ½ - 1 pint/acre (250-500 mL/acre) or 600-1200 mL/Ha depending on residue level. Dilute product in a minimum of 10 gallons of water per acre (38 L/acre) or 100 L/Ha. For best results, apply as early as possible after harvest. Product performance is enhanced by persistent ground moisture.

Mix well before using.
